

# New noise log detailing everything heard as advised by WDH on the 15th

*Everything logged is heard over our TV and computers.*

## [**Day 4**]

### Key

- Very loud & Stressful
- noisy, stressful after extended time
- Acceptable noise

The day started okay and seemed like things were going to get better, we even had lucy's mum, uncle and nana round at one point for a couple hours and it was reasonably quiet, but towards the end of the day they started going back to being noisy, banging about, stomping, slamming doors, shouting etc..

Finally started to feel less stressed as it seemed to be getting quieter, however that soon changed towards the early morning and made us both back to being stressed, it was obvious by 2:30am they were going back to being just as loud as before.
