New noise log detailing everything heard as advised by WDH on the 15th

Everything logged is heard over our TV and computers.

[**Day 2**]

Key

- Very loud & Stressful
- noisy, stressful after extended time
- Acceptable noise

Summary: Banging about all day and night again, shouting, doors slamming, stomping, Bass heavy music playing. The music on both nights hasn't started until after midnight, if it was during the day, it wouldn't be an issue so long as the bass isn't shaking things all over the place

All the noise makes it extremely stressful down here. It was 6am before we finally managed to get to bed, lucy had been trying to sleep since 12:30 that night and was woken up 3 times, ended up just staying up, but we didn't get anything done because we were in bad moods, didn't even eat that day.

03:50 -	13:45 About 60% of this was sleep, the rest was stressing and being woken up by random loud noises.
